

## **ROACH CLEAN OUT**

The following steps must be taken before we will perform a cockroach treatment.

**These Items Must Be Completed Prior To Our Arrival:**

***THE HOME WILL NEED TO BE VACATED FOR 4 HOURS!!!!!!***

- 1. Clean kitchen thoroughly, including floor, stove, range hood, and counter tops.**
- 2. Clean inside and outside of dishwasher. Pull out refrigerator, stove, etc. and clean behind and underneath.**
- 3. All cleaning should be done before, not after treatment.**
- 4. Everything should be removed from kitchen cupboards, above and below the sink, drawers and countertops should be cleaned.**
- 5. Bathroom cabinets and under sink should be cleaned. Wash cabinets inside and out, wipe out drawers with damp rag, clean sink, tub, inside and outside of toilet and scrub bathroom floor. Pick up and remove trash inside and outside.**
- 6. Pets should be removed from inside. Fish tanks should be covered or removed. Children's toys and pet food dishes and exposed food should be placed in a protected area.**

**If you are ill or pregnant or if you or any member of your household has sensitivity to chemical odors or other odors, we recommend that you contact us for product information and consult with your physician prior to the treatment.**

### **After Our Treatment Is Complete:**

Do not re-enter the premise for at least 4 hours unless specified otherwise. If you have medical problems or are sensitive to odors, it may be advisable to stay out longer. Consult your physician. Immediately upon re-entering the treated premises, open windows and doors to air thoroughly.

*It is normal to see roaches for several days after the treatment. It may take several days for roaches hiding in inaccessible areas to contact treated surfaces. After 2-3 weeks, your house or apartment should be re-treated. It is necessary to clear out cupboards for follow-up treatments as well.*
